SHAKE WELL BEFORE USE

Dexlated Chelate plus VM3

MP ENRICH delivers Iron, Manganese and Zinc to turf in a chelated form that will not cause leaf burn or the typical "instant blackening" effect. Instead a rich green colour will gradually develop over the first few hours after spraying and will hold well. MP Enrich contains VM3, a proprietary organic technology that enhances nutrient availability, longevity and compatibility for better turf performance. VM3 is a product of fermentation that incorporates several beneficial bacteria, trace minerals and plant stimulants.

DIRECTIONS FOR USE

Contains humates and kelp.
