

MP GREENS 24

24-1-6 70% Methylene urea + SOP

SGN 100

MP GREENS 24 has 70% of the nitrogen derived from Methydure® methylene urea slow release nitrogen, a trusted technology that has a gradual, consistent release and longevity. The micro-prill provides optimum distribution of fertiliser granules per unit area resulting in a uniform nitrogen application and release. All the potassium is derived from sulphate of potash, a safe and natural source of potassium and sulphur.
