VM3 ORGANICS + VAM

MP NOURISH[®] feeds turf with balanced NPK, formulated with proprietary VM3 organics and added VAM (Vesicular Arbuscular Mycorrhizas). VAM is a beneficial symbiotic fungi that can colonize up to 80% of the turf root mass. The fungal hyphae produced by VAM grow out into the soil medium further than the root hairs themselves, enhancing access to ordinarily unavailable soil nutrient. VAM releases compounds that can dissolve elements susceptible in forming insoluble compounds such as phosphorus and trace elements. Numerous studies have also shown VAM to improve the plants ability to recover from water stress.

DIRECTIONS FOR USE

Contains Humates, Kelp, plant stimulants and VAM Fungi.
