

# MP FIELD PRO

**25-1-5 + 5% Fe**  
200 SGN

## UNIQUE FEATURES

- 40% of the nitrogen is derived from methylene urea
- 35% from UFLEXX stabilised nitrogen
- Combination of two slow-release nitrogen technologies provides much greater longevity
- Contains 5% iron

## TECHNOLOGY

MP FIELD PRO contains methylene urea slow-release fertiliser technology and UFLEXX stabilised nitrogen. UFLEXX contains two inhibitors that reduce nitrogen loss to ammonia volatilisation and nitrate leaching. These proven slow-release technologies provide greater longevity. All the potassium is in the safer sulphate form and the iron provides deep green colour without excessive growth.

## USE PATTERNS

Use MP FIELD PRO at a rate of 280 kg/ha (14 bags) to 390 kg/ha (19.5 bags). Apply to dry turf then wash-in or allow overnight irrigation or rain to wash-in. It is important to calibrate application equipment before applying product to turf.
