

**CHALLENGER**  
PREMIUM TURF SEED

**MP LINKS**

Fine Fescue Blend

**DESCRIPTION**

MP LINKS is designed specifically for areas requiring low inputs. The blend of premium fine fescues provides a durable grass suitable for non-irrigated areas. The chewings – and strong creeping red fescue combination delivers diverse characteristics, making MP LINKS suitable for use in a wide variety of conditions.

**USES**

- Ornamental Lawns
- Golf Course Fairways & Rough
- Roadsides
- Low-use Green Spaces

**COMPOSITION**

- 50% Chewings fescue
- 50% Strong creeping red fescue

**UNIQUE FEATURES**

- Medium to dark green colour
- Fine dense sward
- Diverse blend for good summer heat tolerance
- Suitable in both shaded and open areas
- Attractive grass when left to form a seed head for ornamental out of play areas
- Stays green year-round except under drought conditions
- Low fertiliser requirements
- Resistant to a range of herbicides

**SEEDING RATES**

Bare ground:  
20 to 30 g/m<sup>2</sup>  
2 to 3 kg/100m<sup>2</sup>  
200 to 300 kg/ha

# MP LINKS

Fine Fescue Blend

## ESTABLISHMENT AND GROW-IN TIPS

To ensure full realisation of the seed genetics, it is critical to supply suitable nutrition to the germinating and establishing seedling. Consider these steps and ask your Technical Representative for more details.

1. Apply **MP ROOTS + MP REINFORCE + TriCure AD** directly over the top of newly sown seed
  2. Apply **MP TURF STARTER** 7 to 10 days later
- **MP ROOTS** delivers an accessible balanced nutrition package in combination with rhizosphere stimulating bacteria and VAM (Vesicular Arbuscular Mycorrhizas).
  - **MP REINFORCE** delivers readily available silica for deposition in early roots and leaves, encouraging seedling strength and vitality.
  - **TriCure AD** increases water uptake for faster germination, while promoting uniform water distribution in the germination zone to ensure the seedling has unincumbered access to water and nutrients. Increased root mass and length has been documented (Rutgers University, 2001).
  - **MP TURF STARTER** is perfect as the nutritional base in the soil to set the seedlings up for the entire growing season.
