

# MP AMENITY PRO

16-5.3-13.3  
200 SGN

## UNIQUE FEATURES

- Designed for amenity planting, including perennial shrubs and trees as well as full season feeding for annuals
- 70% of the nitrogen is delivered from polymer-coated urea
- Contains HydroFuze® Fe (0.25%) & Mn (0.1%) for more even distribution of iron and more effective uptake
- Iron and trace elements for a complete fertiliser package

## TECHNOLOGY

The HydroFuze® process impregnates iron onto every granule of the fertiliser allowing for even distribution and HydroGro micron technology delivers effective uptake and availability. Polymer coated slow-release urea provides consistent nutrient release delivering up to 6 months of continuous feeding. MP AMENITY PRO has the monoammonium form of plant available phosphorus that supports early root development.

## USE PATTERNS

Apply MP AMENITY PRO as a topdressing on the surface of perennial shrubs and trees as well as annuals. Use with new plantings, see rate chart to indicate application quantity by planter bag/pot size.
