

MP MINI 14

14-1-3 +1.2% Fe
145 SGN

UNIQUE FEATURES

- Mini-sized particles (SGN 145) provide excellent distribution even at lower application rates
- Designed for use on tees and close-cut fairways
- Potassium in safe form
- Contains iron sucrate

TECHNOLOGY

MP MINI 14 contains potassium derived from sulphate of potash, a safe and natural source of potassium and sulphur. Iron sucrate technology increases nutrient availability and uptake throughout the growing season while minimising mower pick-up with the revolutionary dispersing granule technology. Iron provides deep green colour without excessive top growth.

USE PATTERNS

Use MP MINI 14 on tees and close-cut fairways at a rate of 220 kg/ha (11 bags) to 300 kg/ha (15 bags). Apply to dry turf then wash-in immediately. Has slight burn potential. It is important to calibrate application equipment before applying product to turf.

GUARANTEED ANALYSIS

Nitrogen (N)	14%
(Urea Nitrogen 13.1%)	
(Ammoniacal Nitrogen 0.9%)	
Phosphorus	1.0%
Potassium (K)	3.0%
Sulphur (S)	1.2%
Iron (Fe)	1.2%
Zinc (Zn)	0.07%

Derived From:

Ammonium phosphate, iron sucrate, potassium sulphate, urea.

APPLICATION RATES

220 to 300 kg/ha or 2.2 to 3 kg/100m²
