

# MP SUSTAIN

Promotes soil moisture holding to reduce irrigation frequency

## UNIQUE FEATURES

- Increases water holding through retention of capillary soil water
- Slows soil drying cycle to maintain healthy roots and microbes
- Biologically active organics enhance uptake of plant nutrients
- Works with wetting agents to increase water use efficiency
- Patented formulation is infinitely soluble for reliable tank mixing
- Convenient liquid formulation mixes well and is suitable for irrigation injection

## 10 Litres

## SOIL MOISTURE

## PRODUCT INFORMATION

MP SUSTAIN is a super absorbent liquid that, after applied to turf and horticultural soil, attracts water molecules and increases the water holding of soil. In doing so, MP SUSTAIN slows the drying cycle of soils in summer, enhancing the soil environment for microbes and turf roots alike. Because MP SUSTAIN is stable in soil, it remains active for at least 12 weeks when applied as directed. Additionally, concentrated organics in MP SUSTAIN enhance the uptake of soil nutrients.

MP SUSTAIN compliments the performance of a normal wetting agent program. By stabilising soil moisture cycles in hot weather, the pressure placed on wetting agent to allow re-wetting is reduced and the soil environment enhanced.

## PENETRATE. PROTECT. PROMOTE.

A systems approach  
to water use efficiency

# SHAKE WELL BEFORE USE

## DIRECTIONS FOR USE

SITUATION	RATE	LONGEVITY	COMMENTS
Foliar or soil application: Greens, fine turf, lawns and landscape	10 L/ha	2-3 months	Apply in advance of expected heat stress. Ideal for application via irrigation injection. Spray application should use a minimum dilution of 1 part MP SUSTAIN to 20 parts water (1.0 litre MP SUSTAIN in 20 litres of water). When tank mixing, always confirm compatibility via 'jar test'.
Fairways, sportsturf, lawn turf and lanscape	15 L/ha	3-4 months	

Read the entire label before use.

## STATEMENT OF CONTENTS

100% Patented formulation containing linear polymers and naturally derived, soil complexing, organics.

## CAUTION

MP SUSTAIN is classified as non-toxic. However normal precautions should be taken. If eye or skin contact occurs, wash affected area with plenty of water.

## WARRANTY & DISCLAIMER

This product conforms to and is reasonably fit for the purpose referred to on the label provided it is used strictly in accordance with the directions for use. The Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions herewith. The timing and method of application, weather, watering practises, nature of soil, disease problems, condition of turf, incompatibility with other chemicals not specifically recommended, and other influencing factors in the use or effectiveness of this product are beyond the control of the seller or manufacturer.

NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS MERCHANTABILITY IS MADE.
