

MP KELPLUS

Root growth and stress recovery

UNIQUE FEATURES

- Enhances root growth from naturally derived auxins
- Thickens cell walls for stronger turfgrass defense systems
- Increases antioxidant levels to help turf cope with stress
- Contains beneficial biology for nutrient mineralisation
- Owned, developed and manufactured in Australia

20 L

SHAKE WELL BEFORE USE

FOLIAR USE

While foliar biostimulants are extremely useful for turfgrass, MP KELPLUS is formulated specifically for soil use. MP VITALISE is the MATCHplay product for preconditioning turfgrass with foliar applied nutrition. While MP KELPLUS is safe to apply to turf foliage, it's powerful ingredients are most useful when washed lightly into the soil after application or alternatively mixed with irrigation water.

SOIL APPLICATION

When applied as a drench or when lightly watered into the turf root zone, MP KELPLUS supplies naturally derived plant hormones for increased root growth, thicker cell walls and increased antioxidants for better stress management. The combined benefits of MP KELPLUS help develop a turf sward that is more resistant to damaging turf pests such as nematodes, soil born insects and turf diseases.

DIRECTIONS FOR USE

SITUATION	RATE/HA	COMMENTS
Greens and fine turf, fairways, sportsturf, lawns and landscape	20-40 L/ha Repeat monthly to maximise the cumulative treatment benefits	Apply at least one month in advance of expected turfgrass stress and maintain the frequency of application throughout stress conditions. Apply in 400-800 L of water. Wash gently into the root zone within 24 hours of application to limit the potential for degradation from sunlight.

STATEMENT OF CONTENTS

This product contains a minimum of 1% non ionic wetter + 40% seaweed extract + 15% microbes + 10% amino acid solution + 10% humate & fulvic acid + 24% water.

CAUTION
