SECTION 2. HAZARDS IDENTIFICATION

GHS Classification Flammable liquids	:	Category 4
Acute toxicity (Inhalation)	:	Category 4
Skin sensitisation	:	Sub-category 1B
GHS label elements Hazard pictograms	:	<u>!</u>
Signal word	:	Warning
Hazard statements	:	H227 Combustible liquid. H317 May cause an allergic skin reaction. H332 Harmful if inhaled.
Precautionary statements	:	Prevention: P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P261 Avoid breathing mist or vapours. P271 Use only outdoors or in a well-ventilated area.

0	19.06.2023	S00028750756	
		the workplace P280 Wear pr	inated work clothing should not be allowed out o otective gloves/ protective clothing/ eye protec- ection/ hearing protection.
		P304 + P340 and keep com doctor if you for P333 + P313 vice/ attention P362 + P364 reuse. P370 + P378	If skin irritation or rash occurs: Get medical ad-
		Storage: P403 Store in	a well-ventilated place.
		Disposal:	·
		-	of contents/ container to an approved waste
Other h None kr		not result in classifica	ation
inone ki	iown.		

Components

Chemical name	CAS-No.	Concentration (% w/w)
(2-methoxymethylethoxy)propanol	34590-94-8	>= 30 -< 60
trinexapac-ethyl (ISO)	95266-40-3	>= 10 -< 30
calcium dodecylbenzene sulphonate	26264-06-2	>= 3 -< 10
2-methylpropan-1-ol	78-83-1	>= 3 -< 10

SECTION 4. FIRST AID MEASURES

General advice	 Have the product container, label or Safety Data Sheet with you when calling the emergency number, a poison control center or physician, or going for treatment.
If inhaled	Move the victim to fresh air. If breathing is irregular or stopped, administer artificial respira- tion. Keep patient warm and at rest.
In case of skin contact	Call a physician or poison control centre immediately. Take off all contaminated clothing immediately. Wash off immediately with plenty of water. If skin irritation persists, call a physician.
In case of eye contact	 Wash contaminated clothing before re-use. Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.

Version 1.0	Revision Date: 19.06.2023	SDS Number: S00028750756	This version replaces all previous versions.	
lf swa	allowed	 Remove contact lenses. Immediate medical attention is required. If swallowed, seek medical advice immediately and show this container or label. Do NOT induce vomiting. 		
	important symptoms ffects, both acute and ed	: Nonspecific No symptoms k	nown or expected.	
•	s to physician	: There is no spe Treat symptom	cific antidote available. atically.	

Suitable extinguishing media Unsuitable extinguishing media Specific hazards during fire- fighting		 Extinguishing media - small fires Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. Extinguishing media - large fires Alcohol-resistant foam Do not use a solid water stream as it may scatter and spread fire. As the product contains combustible organic components, fire will produce dense black smoke containing hazardous products of combustion (see section 10). Exposure to decomposition products may be a hazard to health. Flash back possible over considerable distance.
Specific extinguishing meth- ods	:	courses. Cool closed containers exposed to fire with water spray.
Special protective equipment for firefighters Hazchem Code	:	Wear full protective clothing and self-contained breathing ap- paratus. •3Z

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protec- : tive equipment and emer- gency procedures	Refer to protective measures listed in sections 7 and 8. Keep people away from and upwind of spill/leak. Beware of vapours accumulating to form explosive concentra- tions. Vapours can accumulate in low areas. Remove all sources of ignition. Pay attention to flashback.
Environmental precautions :	Prevent further leakage or spillage if safe to do so. Do not flush into surface water or sanitary sewer system. If the product contaminates rivers and lakes or drains inform respective authorities.
Methods and materials for : containment and cleaning up	Contain spillage, and then collect with non-combustible ab- sorbent material, (e.g. sand, earth, diatomaceous earth, ver- miculite) and place in container for disposal according to local / national regulations (see section 13). Clean contaminated surface thoroughly. Clean with detergents. Avoid solvents. Retain and dispose of contaminated wash water.

Version 1.0	Revision Date: 19.06.2023	SDS Number: S00028750756	This version replaces all previous versions.

SECTION 7. HANDLING AND STORAGE

Advice on safe handling	Avoid contact with skin and eyes. When using do not eat, drink or smoke. Use only in an area containing flame pro Take precautionary measures against sta For personal protection see section 8.	
Conditions for safe storage	Keep containers tightly closed in a dry, c ventilated place. Keep out of the reach of children. Keep away from combustible material. Keep in an area equipped with sprinklers Keep away from food, drink and animal f No smoking.	5.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parame- ters / Permissible concentration	Basis	
(2- methoxymethyleth- oxy)propanol	34590-94-8	TWA	50 ppm 308 mg/m3	AU OEL	
	Further informa	ation: Skin abso	rption		
		TWA	50 ppm	ACGIH	
trinexapac-ethyl (ISO)	95266-40-3	TWA	5 mg/m3	Syngenta	
2-methylpropan-1-ol	78-83-1	TWA	50 ppm 152 mg/m3	AU ÕEL	
		TWA	50 ppm	ACGIH	
	APPLICATIONS AND/OR ON-FARM APPLICATIONS CONSULT THE PRODUCT LABEL. Containment and/or segregation is the most reliable technical protection measure if exposure cannot be eliminated.				
	The extent of these protection measures depends on the actual risks in use.				
	standards.		elow occupational exp onal occupational hy		
Personal protective equipment					
Respiratory protection ·	When workers	s are facing cond	centrations above the	exposure	

Respiratory protection :	When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Suitable respiratory equipment:
--------------------------	--

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal method	ls	
Waste from residu	Jes :	Do not contaminate ponds, waterways or ditches with chemi- cal or used container. Do not dispose of waste into sewer. Where possible recycling is preferred to disposal or incinera- tion. If recycling is not practicable, dispose of in compliance with
Contaminated pac	ckaging :	local regulations. Non-returnable containers: Triple rinse containers. Add rinsings to spray tank If recycling, replace cap and return clean containers to recy- cler or designated collection point. Containers marked with the drumMUSTER container logo can be taken to a drumMUS- TER collection site (02 6206 6868, www.drummuster.org.au). Empty containers can be landfilled, when in accordance with the local regulations. If no landfill is available, bury the containers below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt. Returnable containers: Empty contents fully into application equipment. Close all valves and return to point of supply for refill or storage.
