

# SENTINEL 80SC

80 g/L Bifenthrin

## UNIQUE FEATURES

- Fast knockdown control of adult Black Beetle, Billbug and Argentine Stem Weevil
- Excellent control of a wide range of ants
- Fast knockdown control of armyworm and sod webworm
- Light stable pyrethroid lasts longer to kill stronger
- Safe for use on all turf types
- Excellent tank-mix partner for grub control products

## GENERAL INFORMATION

SENTINEL 80SC is a contact and residual insecticide that can be used as a protective treatment when applied at regular intervals or as a knockdown treatment to control existing pests. Best results are obtained when SENTINEL 80SC is applied before pest populations build up to damaging levels. Where a rate range is indicated use lower rates where there is lower insect pressure and higher rates under higher insect pressure.

SITUATION	PEST	RATE (ha)	RATE (100m <sup>2</sup> )
Turf (eg. lawns, turf farms, parks, bowling greens, sports fields)	Lawn Armyworm Sod Webworm	1.5 L/ha	15 mL/100m <sup>2</sup>
	Argentine Stem Weevil (adults) Billbug adults	1.5 to 3 L/ha	15 to 30 mL/100m <sup>2</sup>
	African Black Beetle (adults)	1.5 to 4.5 L/ha	15 to 45 mL/100m <sup>2</sup>
	Black Ant, Coastal Brown Ant, Funnel Ant, Singing Ant	1.5 to 5.5 L/ha	15 to 55 mL/100m <sup>2</sup>

The spreader settings are close approximations. Trial calibration is recommended before widespread use.

## PRODUCT INFORMATION

### PACK SIZE

5 L

### MIXING

Mix thoroughly in water and maintain agitation during application.

### APPLICATION

SENTINEL 80SC is a suspension concentrate requiring dilution with water prior to use. Even coverage is necessary for best results. To aid in even coverage a minimum spray volume of 200 L/ha is recommended. High volumes can be used as in all cases the insecticide needs to be incorporated into the turf thatch and upper soil.
