

Proactive soil management and water conservation solution

Helping the world's best turf managers and agriculturists grow smarter by connecting them to the turf, trees, and crops within their care.

GroundWorx wireless soil sensor and turf management solution

- Reduce water usage and cut costs
- Proactively manage your turf
- Develop a consistent playing surface

Why GroundWorx

- Gives you a complete picture of your turf conditions
- Helps you make better turf decisions with actionable insights
- Helps you reduce water and chemical applications
- Keeps you connected to your turf, 24/7
- Saves you time, money and labour
- Is easy to install - in 10 minutes
- Helps you manage your turf proactively
- Isn't another overpriced soil sensor

You won't waste time:

- Trying to guess what your turf needs
- Wondering how your turf will react today
- Dealing with the same problem spots on your turf
- Wasting water, chemical applications and expensive resources

THE GX-1A SOIL SENSOR

- Know what your turf needs and conserve expensive resources.
- Precise soil moisture, salinity and temperature readings
- Can work with any irrigation system
- Easy to install

GROUNDWORX WEB & MOBILE APPS

Stay connected to your turf and team with the alerts dashboard

- Get alerted to changing turf conditions
- Streamline your labour with task management

Irrigronomy

Where agronomy combines with irrigation
