

# 32kg Stainless Steel Commercial Spreader

## Unique Features

- **Heavy-Duty Construction:** The robust frame and axle are designed for commercial use, ensuring long-lasting durability even in demanding environments, with stainless steel providing enhanced corrosion resistance for extended product life.
- **Precision Rate Control:** The adjustable rate control plate with easy-to-read A-Z settings allows for accurate material application, reducing waste and improving results.
- **Pattern Adjustment System:** The discharge chute can be fine-tuned (settings A, B, C) for left/right pattern control, enabling precise coverage and minimising overlap.
- **Large Hopper Capacity:** The high-volume hopper holds up to 32kg, allowing for fewer refills during large jobs and increasing operational efficiency.
- **Dual Wheel Drive:** Identical drive and free wheels make assembly simple and ensure smooth, reliable operation across various terrains.
- **Deflector Plate:** The deflector accessory enables precise edge spreading, minimising waste on sidewalks, fence lines and roughs for cleaner application.
