

MP BRILLIANCE

20-0-0 + 6Fe + 1Mg

EXTENDED GREENING AND VITALITY OF MANAGED TURF

UNIQUE FEATURES

- Stabilised liquid nitrogen + iron package
- High analysis combination for quick green up
- Long lasting colour for quality appearance
- Enhanced vigour and health of quality turf surfaces
- Magnesium included to optimise chlorophyll production

TECHNOLOGY

Based around a stabilised form of nitrogen, this product extends the period of feeding from a single application by moderating the activity of enzymes that deplete nitrogen in soil. By gently metering the nitrogen as turf requires it, and combining this with other nutrients known to enhance the production of chlorophyll in leaves, nutrient use is optimised and deep green growth occurs without softness or surging.

USE PATTERNS

Use MP BRILLIANCE as a foliar application on tees, greens, fairways, sportsturf, lawns and landscape. Can be applied as frequently as required for colour.

GUARANTEED ANALYSIS

Nitrogen (N) As stabilised Urea	20%
Iron (Fe) As Sulphate	6%
Magnesium (Mg) As Sulphate	1%

SITUATION	RATE	WATER VOLUMES
Tees and greens	200 to 500 mL/100m ²	6 to 10 L/100m ²
Fairways, sportsturf, lawns and landscape	20 to 50 L/ha	400 to 1000 L/ha
