

MP COUCHMASTER

23-1-10

200 SGN

Iron + Magnesium + Manganese

UNIQUE FEATURES

- 70% of nitrogen as UMAXX with 1.5% iron and magnesium for ultimate turf response
- Specifically formulated for all grass types to build a resilient turf surface
- Consistent and efficient feeding for year round application
- UMAXX consistently supplies nitrogen for 10-12 weeks

TECHNOLOGY

UMAXX stabilised nitrogen is a premium slow release technology that performs regardless of soil temperature or weather. UMAXX technology contains two stabilisers that minimises losses due to volatilisation, denitrification and leaching. The result is a combination of up-front and sustained measure nitrogen release to turf plants. UMAXX technology contains two stabilisers that minimises losses due to volatilisation, denitrification and leaching. The result is a combination of up-front and sustained measure nitrogen release to turf plants.

USE PATTERNS

Use MP COUCHMASTER® on tees, fairways and high performance sports turf all year round.

GUARANTEED ANALYSIS

Nitrogen (N) (Urea Nitrogen 10%) (Ammoniacal Nitrogen 1.2%)	23%
Phosphorus (P)	1.5%
Potassium (K)	6.7%
Magnesium (Mg)	5%
Sulphur (S)	0.25%
Iron (Fe)	1.5%
Manganese (Mn)	0.25%

APPLICATION RATES

125 to 250 kg/ha
or 1.25 to 2.5 kg/100 m²

SPREADER SETTINGS

	1.25 kg/100 m ²	2.5 kg/100 m ²
Accupro	H	O
Lesco	H or 16	K or 22

The spreader settings are close approximations. Trial calibration is recommended before widespread use.
