

MP SPECTRUM MINI

20-2-5

150 SGN

Traces + Carbon + Beneficial Microbes

UNIQUE FEATURES

- Biologically activated for rapid and sustained release
- Contains carbon coated urea for improved nitrogen efficiency
- Eco advance premium biology with a full spectrum of trace elements

TECHNOLOGY

MP SPECTRUM MINI® fertiliser is a complete blended mineral based fertiliser with a full range of macro and micro nutrients. Granules have been biologically impregnated with over 20 different types of plant beneficial microbes designed to aid in biological plant and soil health. The microbes include various strains of Mycorrhiza (VAM), Rhizobium, Bacillus and Trichoderma. This formulation is designed to maximise turf health by providing balanced nutrition, strong root growth, re-activation of locked up soil nutrients, minimise leaching and to crowd out other harmful pathogens from plant roots. Zeolite is a natural volcanic rock and has an advantage in its ability to store and release nitrogen, phosphorus, potassium, calcium and trace elements as required.

USE PATTERNS

MP SECTRUM MINI can be applied as a maintenance fertiliser throughout the year. Apply MP SPECTRUM MINI at 150 to 300 kg/ha for maintenance feeding.

GUARANTEED ANALYSIS

Nitrogen (N) (as Urea)	19.5%
Phosphorus (P) (as rock phosphate)	2.0%
Potassium (K) (as sulphate)	5.5%
Sulphur (S) (as sulphate)	0.8%
Calcium (Ca)	6.0%
Magnesium (Mg)	0.1%
Iron (Fe)	1.1%
Carbon (C)	3.7%
Silicon (Si)	8.6%
Manganese (Mn) ppm	3586
Copper (Cu) ppm	27
Zinc (Zn) ppm	101
Molybdenum (Mo) ppm	24
Boron (B) ppm	15
Cobalt (Co) ppm	6
Selenium (Se) ppm	1

SPREADER SETTINGS

	1.5 kg/100 m ²	3 kg/100 m ²
Accupro	K 1/2	P
Lesco	E 1/2 or 13	H or 15

The spreader settings are close approximations. Trial calibration is recommended before widespread use.

APPLICATION RATES

150 to 300 kg/ha
or 1.5 to 3 kg/100 m²
