

# MP STRENGTH

**12-0-20 + 0.5 Fe**

PRE-CONDITIONING TURF AGAINST STRESS

## UNIQUE FEATURES

- Stabilised liquid nitrogen + potassium (high analysis) + iron package
- Colour and vigour from steadily delivered nitrogen
- Enhanced green up from the addition of iron
- Improved turf durability and resilience from potassium pre-conditioning
- The product for maintaining potassium in low CEC sand profiles

## TECHNOLOGY

Based around a stabilised form of nitrogen, this product extends the period of feeding from a single application by moderating the activity of enzymes that deplete nitrogen in soil. Combined with high analysis liquid potassium, this product improves colour and vigour of the turf whilst also enhancing the overall durability of the surface.

## USE PATTERNS

Use MP STRENGTH as a foliar application on tees, greens, fairways, sportsturf, lawns and landscape. Can be applied as frequently as required for colour.

## GUARANTEED ANALYSIS

<b>Nitrogen (N)</b> As stabilised Urea	12%
<b>Potassium (K)</b> As Citrate	20%
<b>Iron (Fe)</b> As EDTA Chelate	0.5%

SITUATION	RATE	WATER VOLUMES
Tees and greens	200 to 500 mL/100m <sup>2</sup>	6 to 10 L/100m <sup>2</sup>
Fairways, sportsturf, lawns and landscape	20 to 50 L/ha	400 to 1000 L/ha
