

MP TURF STARTER

13-10-9

300 SGN

Traces + Beneficial Microbes

UNIQUE FEATURES

- 25% of nitrogen from UFLEXX stabilised nitrogen reducing volatilisation and leaching
- High phosphorus formulation for root enhancement at renovation or seeding
- Use when seeding, turfing or renovating to encourage rooting and recovery
- Eco Advance premium biology with a full spectrum of trace elements

TECHNOLOGY

MP TURF STARTER® fertiliser is a complete blended mineral based fertiliser with a full range of macro and micro nutrients. It contains granules that have been biologically impregnated with over 20 different types of plant beneficial microbes designed to aid in biological plant and soil health. The combination of high phosphorus and UFLEXX stabilised nitrogen promotes vigorous seedling development and root establishment. It significantly increases nitrogen absorption by turf grass to provide uniform growth, deep root mass and consistent colour intensity for up to 8 weeks.

USE PATTERNS

Use this product at seeding, establishment or renovation when high phosphorus feeding is required to stimulate vigorous root development and when nitrogen release needs to be stable and extended. Apply MP TURF STARTER at 125 to 250 kg/ha.

GUARANTEED ANALYSIS

Nitrogen (N)	13.3%
Phosphorus (P)	9.5%
Potassium (K)	8.9%
Sulphur (S)	4.3%
Calcium (Ca)	5.1%
Magnesium (Mg)	0.1%
Iron (Fe)	0.6%
Carbon (C)	0.9%
Silicon (Si)	4.9%
Manganese (Mn) ppm	292
Copper (Cu) ppm	35
Zinc (Zn) ppm	75
Molybdenum (Mo) ppm	9
Boron (B) ppm	11
Cobalt (Co) ppm	5
Selenium (Se) ppm	1

APPLICATION RATES

125 to 250 kg/ha
or 1.25 to 2.5 kg/ha

SPREADER SETTINGS

	1.25 kg/100 m ²	2.5 kg/100 m ²
Accupro	J	K ^{1/2}
Lesco	F or 14	F ^{1/2} or 15

The spreader settings are close approximations. Trial calibration is recommended before widespread use.
