## GENERAL INFORMATION

SENTINEL 2G is a convenient ready to use formulation for a range of insect pests. SENTINEL 2G can be used as a protective treatment when applied at regular intervals or as a knockdown treatment to control existing pests. Best results are obtained when SENTINEL 2G is applied before pest populations build up to damaging levels

## APPLICATION

SENTINEL 2G is a granular insecticide that should be spread with suitable equipment to ensure uniform coverage over the treated area. To ensure optimum control, irrigate the treated area with up to 4 mm water immediately after application. Inspect treated areas for continuing activity. Re-apply as required. Where a rate range is indicated use lower rates under lower insect pressure and higher rates under higher insect pressure.
